In Memory Of Gary Lau.

Following a tragic bicycle accident, senior Gary Lau passed away on the evening of November 5, 1986. Friends and faculty of Montebello High mourn his passing.

Gary Lau was born in Quantun, China, on July 30, 1969, and moved to America when he was six years old. He helped his family in many ways and had a very warm relationship with them.

He attended Montebello High School since his freshman year. Teachers and friends enjoyed his intelligence and his ability to contribute to class discussions. Gary also participated in many school activities such as Montebello's waterpolo and swimming teams, CSF, and Honor Roll. Gary had a G.P.A. of 3.7 and was ranked in the top ten of his senior class. He hoped to major in Aerospace Engineering and attend Cal-Poly Pomona or Cal-State San Luis Obispo. After Gary's passing, school was not the same. A part of us was missing. His empty chair in class is a constant reminder of him. Everyone admired having a friend like Gary. His personality, friendliness, and caring for others will never be forgotten.

"Say not goodbye, for on some bright tomorrow we shall meet again."

OUTSTANDING LEADERSHIP

Dear Seniors:

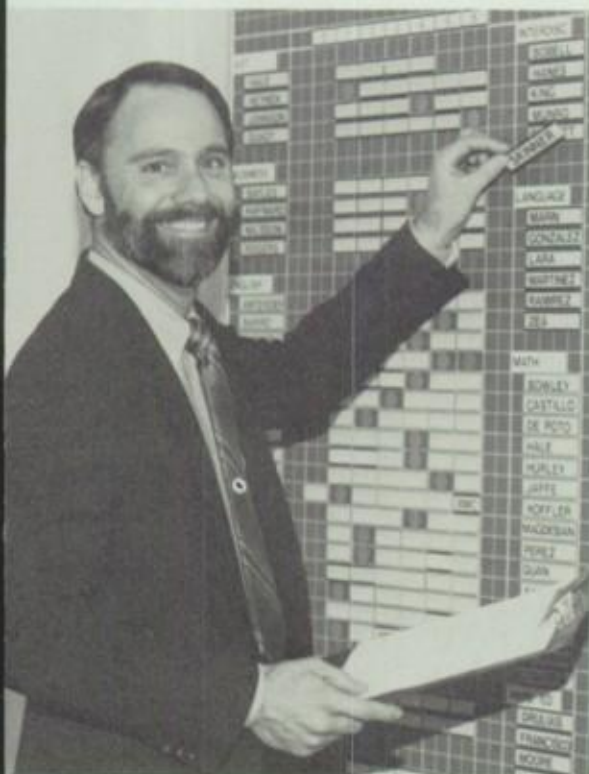

The 1986-87 school year has been a year rich with memories for each student at Montebello High School. You have created a year of fine achievements; scholastically, socially, and athletically. The effort of no one individual made these memories possible. It was the collective effort of a great student body. This year's Golden Key creates a permanent record of the achievements and accomplishments of the many individuals and groups that have become the basis for the success you enjoyed. This year's accomplishments are just the beginning of many varied experiences each and every one of you will go through as you strive for excellence in the future. Good luck and congratulations!

SECRET DEALINGS WITH IRAN

Based on testimony by public officials, the Reagan Administration was involved in arms sales to Iran and secret aid to the Nicaraguan contras.

Oct. 26 '86 the U.S. sent a final shipment of arms to Iran. Nov. 2 '86 hostage David Jacobsen was released.

Nov. 25 '86 after three weeks of controversy over the Iran arms deals, Edwin Meese disclosed the "Contra Connection" but claimed that only Oliver North and John Poin Dexter knew of the entire operation. Both men left the National Security Council as a result.

Counselors play an important role at MHS. They work hard with each of their students, changing class schedules to fit each individual's needs. They counsel their students on the credits required for graduation and special classes needed for college. Mr. Walker jokingly described his job as, "Survival 1-2." Counselors are important and they are well appreciated for their hard work.

Another busy place on campus is the Attendance Office. Hard working attendance personnel distribute what is called a "re-admittance card" to students returning from an absence. Their hard work attempts to encourage better daily attendance among the students.

STAR WARS SUMMIT

In October of 1986, Ronald Reagan and Mikhail Gorbachev met for arms talks in Iceland. The principal proposal was to reduce some 11,000 warheads by 30 percent and to have an extended moratorium on strategic defense. These talks were not successful. Due to the failure of the summit and the turbulent political and diplomatic atmosphere, Congress ponders the issue of increased funding for Star Wars research.

This department employs four professional graphic artists, with the help of students from MHS. Being an educational class and also a live production workshop, students get a taste of real life. A new detention program was also successfully initiated. The Saturday Work Program gave students a chance to make up disobedience by "working off" their tardies and/or cuts. AMERICA ON DRUGS...

Drugs are flooding the nation. This year alone, more than 12 tons of heroin, 65 tons of marijuana and 150 tons of cocaine will spread across the land, from big cities, to rustic hamlets. Between 1981 and 1985, cocaine-related deaths, in 25 major metropolitan centers, more than doubled and cocaine-related emergency-room visits tripled. Studies by the National Institute on Drug Abuse showed that by the end of high school, two-thirds of America's teenagers will have used illicit drugs. This level of involvement with illicit drugs is much more than any other industrialized nation of the world.

75 CLASSIC YEARS

A long, long time ago, in fact three wars and four campuses ago, our forefathers brought forth to this city a new high school. The original idea was discussed by the Montebello El Carmel Improvement Association. On March 6, 1909, an election was held, resulting in 43 votes in favor of a new high school and 19 against. Construction began, and in September of 1910, the first building, accomodating 200 students, was opened on the corner of Whittier and Montebello Boulevards. One month later, the first Associated Student Body (ASB) was established, and in the following June of 1911, three students received diplomas as the first graduating class of MHS.

Many changes have occurred since then, both on campus and around it. In 1924, the school adopted the motto "Honor, Knowledge and Self-Reliance" and changed the school colors from the original purple and white to the present blue and gold. In 1925, the present school site on Cleveland Avenue was opened. Fifteen years later, a new auditorium and gym were constructed to provide opportunities for home basketball games and assemblies, for the 1600 students in

attendance. By the 1950's girls' sports were added to the list of school activities. The next 40 years brought "Baby Boomers", Elvis Presley, the "Hippie Generation" and Bicentennial Celebrations for America and the Statue of Liberty.

In the most recent years, MHS has seen a new principal, assistant principal and teachers, paint to the gym and hallways, along with new lockers, textbooks, and even a Rock Video, taped right here on campus by the group Twisted Sister. 1986-87 was the Diamond Anniversary of Montebello High School, 75 years of history, growth and education. Today there are more than 2300 students attending MHS, some of which are bussed from the Bell Gardens area due to district overcrowding. Plans are even on the drawing board for major renovations of the existing buildings. But Student Life is still full of fun, friends and excitement, with many of the traditions being continued from those early years, as you will see on the following pages!

They performed at pep rallies, a football half-time show, the Homecoming assembly, and the U.C. Irvine Dance Day. In addition, the Dance Team sponsored an all school dance assembly, and two evening shows, "That's Talent" and "Extrava-Dance". Dance scholarships were given with the money raised from these events. Mrs. Pat Woods, the Dance Team advisor, was very proud of Christy Sandoval, Marcia Cruz, and Alice Lumanlan as they were chosen to participate in the U.C.L.A. School of Performing Arts this year.

The marriage booth was lined up with couples who exchanged imaginary vows. When it was over, underclassmen dreamed of next year's Sadie Hawkins, while the Seniors enjoyed their last.

Freshman Anita Ho and her date decide on the picture package as the remembrance of her first Sadie Hawkins dance.

The Yearbook Staff would like to thank you all for your cooperation, and patience, in making this year's annual, a "Classic." We made the yearbook especially for you and hope that it appeals to everyone. We would also like to express our sincere appreciation to Mrs. Skinner, for helping us make it through this year. Without her, we all wouldn't of made it to the final deadline. Thank you again Montebello Oilers. "Good Luck" to all of you during the future, especially the graduating Seniors! We Did It, 87, with class!

Sincerely Yours,

The Golden Key Yearbook Staff
